Subject: design example clarification (UNCLASSIFIED)

Classification: UNCLASSIFIED

Caveats: NONE

Rebecca,

For Design Example 2 in Appendix A, I was confused when it said 75% of the roof will be green and 25% regular roof, and then 11250sf is entered under roof area and 3750sf entered under BMP. It may just be those numbers should be reversed?

Thanks,

Erin Mahoney, PE
